60	1.87	1.65	98.3	81.9	70.2	61.4	54.6	49.1

The Nitro Bar has been developed to optimize nitrogen application. To achieve the best results, we suggest the following:

- * Continually watch for consistent nitrogen streams, breaking of the stream will not provide optimal results
- * Do not use if wind is causing steam to break up
- * Do not travel at more than 10 mph
- * Do not use more than 40 PSI pressure
